SUMMARY

MERN stack developer with hands-on experience building responsive full-stack web applications using React.js, Node.js, Express.js, MongoDB, and JWT-based authentication. Built and deployed projects covering REST APIs, protected routes, and responsive UI design. Seeking a full-time Software Development Engineer (SDE) role to leverage full-stack capabilities in driving robust product development and engineering execution.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), C++, Python

Frontend Technologies: React.js, React Router, Bootstrap, Responsive Web Design, DOM Manipulation

Backend Technologies: Node.js, Express.js, RESTful APIs, Authentication, Authorization

Databases: MongoDB, SQL

Tools & Technologies: Git, GitHub, VS Code, Vercel

Core Competencies: Data Structures & Algorithms, DBMS, OOP (Object-Oriented Programming)

EXPERIENCE

Frontend Developer Intern

Mar 2025

Nxt Wave CCBP 4.0 Academy

Remote (1 Month)

- Developed and optimized responsive web pages using HTML, CSS, and Bootstrap, enhancing cross-device usability and improving rendering performance.

PROJECTS

Food Waste Exchange – MERN Stack Donation Platform

GitHub

July 2026

- Built a multi-role MERN platform connecting food donors, NGOs, and volunteers, featuring dynamic role-based registration, JWT authentication, and secure cookie-based session management.
- Implemented role-based API access control with Express middleware and bcrypt password hashing, including protected admin provisioning to prevent unauthorized privilege escalation.
- Technologies used:** React.js, React Router, Node.js, Express.js, Mongoose, JWT, bcrypt, Axios, JS-Cookie.

ECommerce (Nxt Trendz)

GitHub | Live Demo

Nov 2025

- Built a multi-page e-commerce app featuring Login, Product Listing, and Cart components using React Router and reusable UI elements.
- Implemented robust product search and category/rating filters with dynamic state management using React Context.
- Secured application routes with JWT-based authentication, protecting sensitive pages from unauthorized access via REST API calls.
- Technologies used:** React.js, JavaScript, CSS, Bootstrap, React Router, REST APIs, JWT.

EDUCATION

Knowledge Institute of Technology (KIOT)

Salem, Tamil Nadu

Bachelor of Engineering in Electronics and Communication Engineering (ECE)

Sep 2023 – Present

- Current CGPA: 7.8/10

Sri Vijay Vidhyalaya Matric Higher Secondary School

Dharmapuri, Tamil Nadu

Higher Secondary Certificate

Mar 2022 – Mar 2023

- Percentage: 85 %

ACHIEVEMENTS

- Shortlisted for Round 1 in HACKXELERATE 26, a national-level hackathon at KPR Institute of Engineering and Technology, collaborating in an intensive 24-hour innovation sprint.
- Built and deployed 3+ AI agent automations using Make.com and N8N for LinkedIn/Twitter workflows, reducing manual posting time by 70%.
- Solved 280+ problems on LeetCode, demonstrating proficiency in data structures, algorithms, and complex problem-solving.
